Parents/Guardians of CRTEC Career-Technical School Students:

To honor Governor Little's order to "stay at home" and the need to practice "social distancing", COSSA is moving to remote delivery of instruction for CRTEC career and technical school classes. We will begin to organize this remote delivery on Monday, March 30th.

Students and parents will be contacted by CRTEC staff beginning March 30th, to determine if their home has Internet/online capability, and to determine the best method of maintaining contact with the family, whether through the Internet, by email, or by phone. Please do not come to CRTEC or any district school to contact staff - no students or parents are allowed on school property during the "stay at home" period ordered by the Governor.

CRTEC is aware that your student will also receive remote delivery of their home high school classes, so we also want to "de-conflict" daily schedules as much as possible. Please have your student's home high school remote delivery schedule available when CRTEC staff make contact so we do not double-book a time slot for our CTE classes.

For those families without online capability, alternative arrangements, such as learning projects, will be provided. It may take the entire week of March 30th to organize remote delivery of classes, so we ask for your patience.

If you have questions, you may leave a message at 208-482-6074 Ext 222. Thank you, and please stay safe.

Sincerely,

H. A. Nevill, Ph.D.
